Captain Commando

GETTING STARTED

1. Insert the **MEGA MAN II** cartridge and turn on your Nintendo machine. The story of **Mega Man** will begin. If you would like to skip the story, press **START**.
2. The **MEGA MAN II** title screen should be on the screen. Use **SELECT** to choose **NORMAL** or **DIFFICULT** mode. Press **START** to begin the game.
3. You must now choose to **START** or enter a **PASSWORD**. Press **START** to begin the game. The **PASSWORD** option will be discussed later in the **Passwords** section of the manual.
4. The **STAGE SELECT** screen will appear. This screen has pictures of all eight enemy robots plus a spot in the middle for **Dr. Wiley**. Use the control pad to move the flashing box to the opponent of your choice and press **START**. The experienced player will probably want to choose **Metal Man** first. The beginning player may want to try **Air Man** or **Flashman** first. Later on in the manual you will find a section called **How to Beat Airman**. This is intended to help a beginner get the feel of the game.

Nintendo recommends against using a rear projection television with your NES as image retention on the screen may occur.

CONTROLLING MEGA MAN

The controls for **Mega Man** are quite simple, but true mastery takes both practice and skill.

Pushing **RIGHT** and **LEFT** on the controller moves **Mega Man** right and left. This works even when he is jumping or falling. **Remember this!** It is a very important feature.

UP and **DOWN** are used for climbing up and down ladders. Anytime the pad is pushed **UP** and **Mega Man** is over a ladder, he will immediately start climbing.

The **A** button is used for jumping. The longer you hold the button down, the higher **Mega Man** will jump. If **Mega Man** is standing still on a ladder when you try to jump, he will fall. Pushing **UP** while **Mega Man** is falling off of a ladder will make him stop falling.

The **B** button is used for shooting. Unlike some super heros, **Mega Man** can shoot while he is jumping or falling.

The **START** button is used for changing weapons, using energy crystals,

CONTROLLING MEGA MAN

and finding out how many lives you have left. It is also a convenient way to pause the game. Choose **Next** to look at the second screen. Use the **UP** and **DOWN** arrows to select the weapon you want and push **START** again to return to the game. For more information on this function, see the **Weapons** section of this manual. Be careful; if you push **START** while on a ladder, **Mega Man** will fall off the ladder when you return to the game.

One final note: When **Mega Man** is damaged, he is invulnerable for a second or two. Take advantage of this time to get past tough opponents.

ENERGY

In the upper left hand corner of the game screen is an energy meter. This shows how many more points of damage **Mega Man** is capable of absorbing. When the meter reaches zero points, one **Mega Man** life will be lost.

There are a number of objects that **Mega Man** can find that will increase his energy. There is an energy pellet and an energy ball. These add a little energy and a lot of energy respectively.

There is also an energy crystal. This is a full load of energy that **Mega Man** can carry around with his weapons and use whenever he is running low on juice. This is accessed by pressing the **START** button and selecting the Energy crystal. Push the **START** button again to fill your energy back up to maximum. Then select a weapon and hit the **START** button once more.

When you select a weapon besides the standard **Mega Man** weapon, a second meter will appear to the left of the first. This tells how much charge

remains in the current weapon. When that reaches zero, the weapon no longer fires. Weapons may be re-energized with weapon energy pellets and balls.

The final robot of each level also has an energy meter on the right side of the screen to tell how many of your shots it can absorb. When this meter reaches the zero, you have defeated the enemy. Some enemies are invulnerable to certain weapons, but usually one certain weapon will damage each opponent a great deal.

SPECIAL ITEMS

In addition to the weapons, there are three special transportation items. These are:

- Item:** Acquired when **HeatMan** is defeated. This is a levitation platform. Up to three may be launched at a time.
- Item:** Acquired when **AirMan** is defeated. This is a jet sled. Use it to fly over difficult areas.
- Item:** Acquired when **FlashMan** is defeated. This is an elevator and may only be used against a wall. This item is capable of traveling higher than the Levitation Platform.

PASSWORDS

After defeating each enemy, you will have a choice between either **Stage Select** or **Password**. If you choose **Password**, the current password will be shown. You may write this down and use it later to get to this exact same point in the game. Simply keep track of where the bubbles are and next time you begin the game select **Password**. A cursor will be displayed. Move the cursor around with the control pad and hit the **A** button in each square that had a bubble in it before. When you are finished you can continue the game from that point.

MEGA MAN

HOW TO BEAT AIRMAN

Airman lives in his domain in the clouds. Fortunately, **Dr. Light** has found information about his domain. Here is a step-by-step guide beginning just after you select the **Airman** level. Push the **START** button to pause at the end of each section. (Remember: You must push **START** again to return to the game.)

1. Walk right to the edge of the platform. When you reach the edge, the first **Air Tikkl** will appear. It will immediately start raising its horns. Jump onto it as soon as it starts to lower its horns, run across and jump to the platform on the other side. Do not remain on its head if you can help it. As soon as you land on the platform on the other side, turn around and shoot the **Lump** that pops up. If you do not hit him immediately, jump up and shoot at him until you hit him. Then turn and wait for the horns to go down on the next **Air Tikkl** and repeat the process. Do this for all five.
2. a) A **Lightening Lord** will fly on the screen to your right. Jump up and shoot him until he explodes. Then jump onto his **Thunder Chariot**.
b) Turn to your right and shoot at the next **Lightening Lord** as he comes onto the screen and jumps his chariot.

c) Ride through the cloud and as you drift up into range, carefully jump up and shoot at the next **Lord** as quickly as possible. Jump to his chariot as fast as you can.

d) Turn to the left and shoot the next **Lord** as you come up alongside. Then simply step off the left side of your chariot and you will land on his.

e) Face right to shoot the final **Lord** when he comes up alongside, and jump to his chariot. When this chariot gets close to the next edge, you can easily jump onto it.

3. Run along the platform until you see a **Flying Fish** drop an egg. When the egg hits the ground it will explode and the feathers will hurt you. To avoid this, you should stop and shoot at the egg as it is falling. The **Flying Fish** are evenly spaced and some are not visible because they are behind clouds. You will have to learn how far apart they are so that you know when to stop running and start shooting. When you reach the right edge of the platform, walk into the cloud and off the side and you will fall down to the lower level.

HOW TO BEAT AIRMAN

5. Walk right to the edge of the platform and another **Air Tikki** will appear. When its horns start to go down, jump onto it and walk to the right edge and back to the center. Walking to the right edge will summon the next **Air Tikki**. You must wait, however, for the horns on both demons to go down before jumping onto the second one. Wait at the center of the second one for the horns to go down again and jump to the edge. Remember, if you get hit, you are invulnerable so move quickly.
6. Jump from platform to platform until you get close to the first **Fan Flend**. The **Fan Flends** will try to blow you away from them, just jump up to the right and shoot away while he blows you back left. After you defeat him, move on to the next one. Be careful, there are more flying fish out there. If you are jumping between platforms and get hit, you may fall into the abyss. Once past all three **Fan Flends**, you will reach a gate. Walk through this gate and you will enter a room with another gate on the far end. Beyond this gate dwells **Airman**.
7. **Airman** throws small tornados which deflect your shots and damage you.

4. Jump left onto the two upper platforms. Then walk into the cloud on the lower left and you will fall down to the next screen.
Run up close to the nearest tornado and try to jump over it. When there is nothing between you and **Airman**, he is very vulnerable to your shots. Shoot as quickly as you can before he has a chance to throw more tornados. He will usually throw 2, 3 or 4 sets of tornados before a proficient player defeats him.

Good luck!

Bubble Man

WEAPONS

As **Mega Man** defeats each enemy, he acquires their powers.

HeatMan: The **(H)** Atomic Fire can throw three different sizes of fireballs. The longer you hold the fire button, the bigger the fireball.

AirMan: The **(A)** Air Shooter throws small tornados.

WoodMan: The **(W)** Leaf Shield creates a shield around you until you move. The leaves are then thrown in the direction the control pad is pushed.

BubbleMan: The **(B)** Bubble lead is a bubble that rolls on the ground in front of you and damages what it hits.

QuickMan: The **(Q)** Quick Boomerang can throw up to three boomerangs. Hold the fire button for continuous fire.

FishMan: The **(F)** Time Stopper will freeze all enemies for a little while. Be careful. When this is used, it will continue until it is completely drained of energy. It cannot be turned off early.

MetalMan: The **(M)** Metal Blade is a gear. Up to three may be thrown in any direction the control pad is pushed. This is probably the best general purpose weapon and the energy lasts a long time.

CrashMan: The **(C)** Crash Bomber can be thrown at walls and will detonate after a short delay. It may be used to get through certain walls.

These weapons work with varying degrees of effectiveness on different opponents. It is best to experiment, especially when fighting the final robot of each level.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturers' instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the computer with respect to the receiver
- Move the computer away from the receiver
- Plug the computer into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio-TV Interference Problems.

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

90-DAY LIMITED WARRANTY

90-DAY LIMITED WARRANTY

CAPCOM U.S.A., Inc. ("Capcom") warrants to the original consumer that this Capcom Game Pak ("PAK") shall be free from defects in material and workmanship for a period of 90 days from date of purchase. If a defect covered by this warranty occurs during this 90-day warranty period, Capcom will repair or replace the PAK, at its option, free of charge.

1. DO NOT return your defective Game Pak to the retailer.
2. Notify the Capcom Consumer Service Department of the problem requiring warranty service by calling: Outside California State (800) 843-4632, or inside California State call (408) 745-7081. Our consumer Service Department is in operation from 8:00 A.M. to 5:00 P.M. Pacific Time, Monday through Friday.
3. If the Capcom service technician is unable to solve the problem by phone, he will provide you with a Return Authorization number. Simply record this number on the outside packaging of your defective PAK, and return your PAK freight prepaid, at your risk of damage, together with your sales slip or similar proof-of-purchase within the 90-day warranty period to:

CAPCOM U.S.A., Inc.
Consumer Service Department
3303 Scott Blvd.
Santa Clara, CA 95054

This warranty shall not apply if the PAK has been damaged by negligence, accident, unreasonable use, modification, tampering, or by other causes unrelated to defective materials or workmanship.

REPAIRS AFTER EXPIRATION OF WARRANTY:

If the PAK develops a problem after the 90-day warranty period, you may contact the Capcom Consumer Service Department at the phone number noted above. If the Capcom service technician is unable to solve the problem by phone, he may provide you with a Return Authorization number. You may then record this number on the outside packaging of the defective PAK and return the defective PAK freight prepaid to Capcom, enclosing a check or money order for \$10.00 payable to CAPCOM U.S.A., Inc. Capcom will, at its option, subject to the conditions above, repair the PAK or replace it with a new or repaired PAK. If replacement PAKS are not available, the defective PAK will be returned and the \$10.00 payment refunded.

WARRANTY LIMITATIONS:

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO NINETY DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITIONS SET FORTH HEREIN. IN NO EVENT SHALL CAPCOM BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES.

The provisions of this warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts or exclusions of consequential or incidental damages, so the above limitations and exclusion may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.
